 Abhinav Sharma |  iabhinavsharma

EDUCATION

• KIET Group of Institutions

B.Tech in Electronics and Communication Engineering

◦ CGPA: 7.9/10 (1st Semester)

August 2025 – May 2029 (Expected)

Ghaziabad, India

PROJECTS

• Portfolio Website

Tools: HTML, CSS, JavaScript, Git, GitHub, Vercel

June 2026

 

- Developed a responsive personal portfolio website showcasing projects, technical skills, and contact information
- Designed a modern dark-themed user interface with smooth navigation and reusable components
- Integrated project links, resume download, and one-click email copy functionality

• Random Password Generator

Tools: HTML, CSS, JavaScript

June 2026

 

- Built a web application that generates secure 14-character random passwords using JavaScript
- Implemented random password generation with uppercase letters, lowercase letters, numbers, and special characters
- Designed a responsive interface with one-click password generation

• Accident Detection Helmet

Tools: ESP32, MPU6050, NEO-6M GPS, Arduino IDE, C++

October 2025

- Developed a portable accident detection system using ESP32, MPU6050, and NEO-6M GPS for impact detection and location tracking
- Implemented a 10-second cancel mechanism to reduce false accident alerts before GPS logging
- Integrated a rechargeable LiPo battery pack with TP4056 charging module for portable operation

• Gesture Controlled Robotic Car

Tools: ESP32, MPU6050, L298N Motor Driver, Bluetooth Classic, Arduino IDE, C++

April 2026

- Built a Bluetooth-controlled 2WD robotic car using two ESP32 microcontrollers for wireless communication
- Implemented gesture-based navigation using MPU6050 tilt data with a dead-zone filter for stable control
- Controlled DC motors through the L298N motor driver for real-time directional movement

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, JavaScript, HTML5, CSS3
- **Web Development:** HTML5, CSS3, JavaScript
- **Embedded Systems:** ESP32, Arduino, Embedded C, MPU6050, NEO-6M GPS, L298N Motor Driver, OLED Display, LCD Display, Ultrasonic Sensor
- **Communication Protocols:** Bluetooth Classic, I2C, UART
- **Development Tools:** Git, GitHub, VS Code, Arduino IDE, EasyEDA, Fusion 360

RELEVANT COURSEWORK

- **Coursework:** Calculus, Linear Algebra, Data Structures & Algorithms, Python Programming, C Programming, Internet of Things (IoT)
